

AMENDMENTS TO THE ABSTRACT

Please replace the Abstract of the Disclosure that begins on page 16, line 2 and ends on page 16, line 16 with the following:

ABSTRACT OF THE DISCLOSURE

A steam inhaler includes a water tank[[,]] with a heating chamber ~~arranged at~~ on a lateral side ~~of the water tank~~, a heater ~~which is mounted at~~ on an external side wall of the heating chamber ~~for heating up the water in the heating chamber~~ to generate water vapor, a vapor chamber ~~arranged~~ at the front side of the water tank with a vapor inlet ~~in communication with~~ connected to the heating chamber such that vapor generated in the heating chamber flows to the vapor chamber, a connecting arm ~~for conveying the~~ to convey vapor from the heating chamber, and a nozzle ~~which~~ that atomizes the vapor from the connecting arm. The nozzle includes a rotatable cylinder with a vapor outlet port. ~~Vapor passes through the internal passage and the vapor outlet port of the rotatable cylinder to a nozzle for atomization.~~ The steam inhaler ~~also~~ further includes a pair of ion electrodes ~~correspondingly arranged at~~ on an inner wall of the connecting arm and projecting into the internal passage. ~~Moreover,~~ Furthermore, negative ions are generated by a negative ion generator is ~~provided at a negative ion outlet in the vicinity of~~ mounted adjacent to the nozzle ~~for generating negative ions.~~
